

WCD Expands Brownfield Funding Capabilities

Pennington, NJ, November 16, 2010—WCD Capital Partners provides the total solution for the redevelopment of environmentally distressed properties and Brownfield sites, including funding for the engineering investigation, remediation, and development of contaminated properties and the funding and acquisition of distressed real estate assets. WCD also designs and implements complimentary insurance and risk transfer programs to guarantee remediation costs and protect against short and long term environmental claims.

To lead this effort for WCD, Mr. David White has joined the team as Director of Capital Markets and Finance. Mr. White comes to WCD with 18 years in the capital and investment markets, identifying, commercializing, capitalizing, and managing unique investment opportunities across a diverse array of industries. He has a demonstrated success in utilizing, coordinating, and creating many types of debt and equity financing structures.

"WCD is pleased that David has agreed to join our team and lead this effort," commented Wm. "Chip" D'Angelo, Founder and President of WCD Group. "While new to the WCD organization, Mr. White has a long history of organizing capital for environmental companies, projects, and real estate endeavors. We have known and worked with David for many years."

Mr. White is a graduate of the Wharton School of Business. He will be based in Chicago.

About WCD Group

WCD Group is a multi-faceted enterprise, specializing in various aspects of the environmental industry. WCD Group is the parent organization to three individual companies operating nationally in the environmental claims, environmental consulting, remediation, restoration, construction management, and property development areas. WCD Group's companies are prepared to tackle the most challenging assignments in virtually all environmental categories from emergency response, environmental risk assessment, remediation management, claims analysis, litigation support, to redevelopment of contaminated properties. WCD has firmly established itself as a "trusted advisor" to some of the largest legal, insurance, development, and construction entities in the United States.
